Ok. The programmers finished automatically updating graphs in the viewer. They can be cut and pasted out of that tool.

Can I let Burgo show you that later tonight? This will be easiest on you.

Thanks Marty!

How do we send the trend charts? Or do we?

Terry,

Please pass this information to your EOC.

Today, you have one workbook with 3 worksheets for each Region. Within a few days you will have just one data table. What did you think of the queries we went yesterday? Did they help? When the EUs let us know their standards, we could add them back in.

We have a DATA Team member deploying to the field today to work help shepherd some of the admin functions of the EU. We are just having a hard time understanding what they need and getting them to look at what they are asking to be developed.

Please help us identify inconsistencies and things to make the data better. We are finding a rhythm.

M
